INTRODUCTION

In contemporary society, there's confusion between intersex and transgender identities. Intersex individuals don't fit conventional sex binaries due to differences in genitals, chromosomes, or reproductive organs. In contrast, transgender people have a gender identity that differs from their sex assigned at birth. In India, derogatory labels like "chakke" or "hijre" are sometimes used for intersex individuals. Many face marginalization, highlighting the need for support and opportunities. Our initiative proposes a dedicated app and website to empower this community through education and job opportunities, fostering understanding and inclusivity.

PROBLEM STATEMENT

The solution is to create a platform bridging the transgender and intersex communities. Focused on transgender issues, it aims to promote inclusivity, raise awareness, advocate for equal rights, offer support services, foster understanding, and create a more accepting society. Specific goals vary based on the project's scope, be it educational, advocacy-driven, or support-oriented.

SOLUTION

The problem statement behind a project centered on the discrimination against intersex inferiority and unawareness, typically stems from a desire to address inequalities, promote social justice, amplify voices that are often marginalized, foster inclusivity, and create a safer, more supportive environment. It focuses on working towards a more equitable society where

- ✦ everyone can thrive regardless of their gender identity

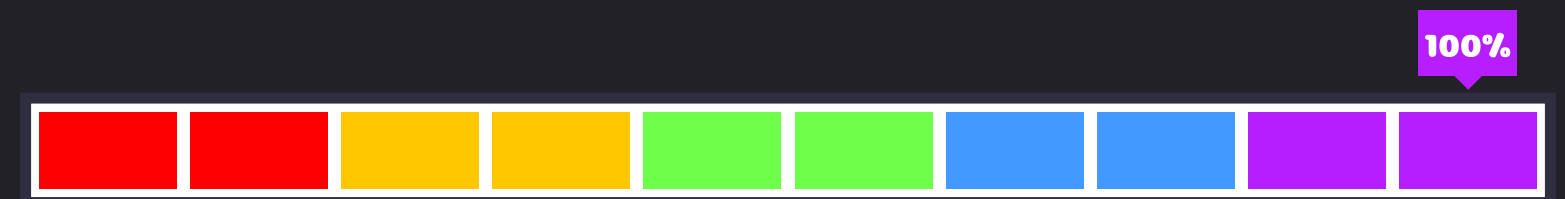

PREVIOUS PROGRESS

- Research and Exploration on website design and functionality.
- Implementation of website front-end.
- Implementation of app front-end using figma and flutter.

CURRENT PROGRESS

- Implemented search feature for job opportunities.
- Implemented problem posting function on website.
- Recorrected app design.

INDIVIDUAL CONTRIBUTION

PRANJALI SHRIVASTAVA- APP UI UX

ESHITA KHARE-Research & Exploration

SOUMYA NAIDU- Research & Exploration

R.MALLIKA- PPT, Report & Content

AARIDHI VISHWAKARMA- Website UI UX

AYUSH VERMA- APP

KETAN SHARMA- Website

PRIYANSHI JUNEJA- PPT, Report & Content

THANK YOU!
